Pre-Conflict Management Tools: Winning the Peace

By Aaron B Frank, National Defense University

Createspace, United States, 2012. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.The Pre-Conflict Management Tools (PCMT) Program was developed to transform how intelligence analysts, policy analysts, operational planners, and decision makers interact when confronting highly complex strategic problems. The PCMT Program capitalizes on technologies and methods that help users collect, process, perform analyses with large quantities of data, and employ computational modeling and simulation methods to determine the probability and likelihood of state failure. The Program s computational decision aids and planning methodology help policymakers and military planners devise activities that can mitigate the consequences of civil war, or prevent state failure altogether. State failure has become an increasingly important national and international security issue since the end of the Cold War. Weak and failed states establish a nexus of interests between global terrorism, embattled leaders or insurgents, and large populations easily mobilized by a combination of violent ideology and economic opportunity. Civil war, the most common form of armed conflict around the world, undermines regional and international stability and catalyzes larger national security problems, such as weapons proliferation, organized crime, and terrorism. The PCMT Program builds on social...
